DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on 4/4/2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on Application Number 10/736508 has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Friedman on 4/18/2005.

The application has been amended as follows:

Cancel claims 15-37.

In claim 4 at line 1, delete "claim 2" and insert --claim 1--.

In claim 5 at line 1, delete "claim 2" and insert --claim 1--.

Allowable Subject Matter

Claims 1, 4-14 and 38 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 4-14 and 38, the prior art fails to teach an optical window assembly system having an outer window and an inner window with intervening space between the windows and a mechanism for cooling a coolant occupying the intervening space, wherein an inner surface, facing away from outer window side, of the inner window is coated with an optical coating which is substantially transparent in at least one of visible wavelength bands and infrared wavelength bands and is substantially opaque to an electromagnetic radiation for radio and radar frequencies as claimed in independent claim 1.

Claims 4-14 and 38 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
